

Environmental Policy Statement

GPM Furniture is committed to fulfil our environmental obligations through the efficient management of our environmental performance and to take all reasonable measures to conduct our business activities in a safe and responsible manner. Our objective is to integrate the assessment, management, and control of environmental issues into our business activities, to minimise negative impacts to the environment and provide positive enhancements where possible.

We are committed to:

- Assessing environmental impact of our operations during planning, design and delivery to prevent pollution, protect ecosystems and enhance biodiversity.
- Identifying and ensuring compliance with relevant environmental legislation as a minimum and, where possible and approved industry codes of practice.
- Setting and developing environmental objectives and targets within our overarching business strategy and plans, which are regularly monitored and reviewed to determine their effectiveness and to ensure continual improvement.
- Improving environmental performance and increasing awareness of environmental risks and opportunities by providing training in environmental issues to our workforce.
- Responding to climate change through mitigation and adaptation and to promote responsible procurement and resource efficiency across all areas of our influence including our supply chain and clients.

Environmental responsibilities have been defined for GPM Furniture and are available as part of our arrangements. Our workforce are expected to co-operate with GPM Furniture in the implementation of the environmental management policy and ensure that their own work is carried out with minimum risk to the environment.

This statement is regularly reviewed to ensure it remains current and appropriate to the purpose and context of the organisation, including the nature, scale and environmental impacts of our activities, products, and services.
